

SharinPix Privacy Policy

1. Overview and Scope

This Privacy Policy describes how SharinPix ("we," "us," or "our") collects, uses, discloses, and protects information when you use the SharinPix mobile application (the "App"). This App serves as a professional extension of the SharinPix ecosystem.

By using the App, you acknowledge that you have read and understood this policy. Your use of the App is also governed by the agreement between SharinPix and the organization (e.g., your employer or business partner) that provided the access credentials.

2. Information We Collect

We prioritize your privacy by minimizing data collection. The information we process falls into two categories:

- **User-Generated Content:** This includes photos, images, and associated metadata (such as timestamps or location data) captured via your camera or uploaded from your device.
- **Voluntary Communications:** If you contact us for support or feedback, we collect your name, email address, and the contents of your message.
- **Technical Data:** We may collect basic, non-identifiable technical logs required to maintain app functionality and security.

3. Data Ownership and Management

The SharinPix App is a tool for business processes.

- **Ownership:** All photos and metadata uploaded through the Application are the exclusive property of the **Organization** that provided you with the access codes (coded URL).

- **Role of SharinPix:** We act as a service provider (data processor) for your organization. We store this data on our secure servers solely to fulfill our contractual obligations to them.
- **Access & Inquiries:** Questions regarding the use, retention, or deletion of images you upload should be directed to your organization's administrator.

4. Personally Identifiable Information (PII)

We do not require user registration, accounts, or profiles to use the App. Authorization is handled via secure, embedded access codes (URL links).

- **Usage Limitations:** PII provided via support emails is used strictly to resolve your request. We do not sell, rent, or trade your PII to third parties for marketing or commercial purposes.
- **Data in Images:** If you capture images containing PII (e.g., photos of ID cards or documents), this data is treated as User-Generated Content owned by your organization. SharinPix does not access or "mine" this data for independent purposes.

5. Data Security

We implement industry-standard technical and organizational measures to protect your data from unauthorized access, loss, or misuse. This includes encrypted transmission and secure server environments.

6. Your Rights and Choices

Depending on your jurisdiction, you may have rights regarding your data (e.g., access, deletion, or portability). Since your organization controls your data, please contact them directly to exercise these rights. We will assist your organization in responding to such requests as required by law.

7. Changes to This Policy

We may update this Privacy Policy periodically to reflect changes in our practices or legal requirements. The "Last Updated" date at the top indicates when the latest changes were made. Continued use of the App constitutes acceptance of the revised policy.

8. Contact Us

For questions or feedback regarding this policy, please contact us at: **Email:**
